**Summary:**

Use in Dams-Switchback was very light and standards were met in 2014. The 2014 grazing season was very dry and water was in short supply especially in Horton and Switchback pastures. All cattle were off the allotment by July 25<sup>th</sup>. Management activities across the allotment are good and under the continued management practices Forest Plan standards will be met into the future.

**Recommendations:**

At this time there are no changes needed to these allotment.
